Historical/Biographical Information

JSHA, founded in 1975, is a nonprofit organization dedicated to researching those German auxiliary troops (generically called Hessian) who remained in America after the Revolutionary War, became loyal citizens, made cultural contributions and were the progenitors of any thousands of Americans living today.

JSHA was named in recognition of Johannes Schwalm, a Hessian, serving in von Knyphausen's Regiment, which along with other German auxiliary troops, was captured at the battle of Trenton. Thousands of German auxiliaries to the British Crown remained in America after the Revolution, and many, like Johannes, settled in the Pennsylvania Dutch area of Pennsylvania. JSHA was organized to pool information of several descendants who were (separately and unknown to each other) researching Johannes and his contemporaries.

The Bicentennial of the United States was an appropriate time for JSHA to culminate efforts by publishing the book, *Johannes Schwalm* in 1976. The widespread approval of the book (now out of print) encouraged JSHA to publish supplementary journals and monographs based on original research on German auxiliary troops and their influence on America. --- JSHA website jsa.org
